"I think Naz is amazing. I think he is incredible in everything he does, as a DJ and at the restaurant. He shines in every aspect of his life. He's worked very hard and he's done it all by himself.

"He's a great friend. He always puts his friends first before any of his endeavours. He's always there for his friends. It's really great to have him around."

"I have known him for several years in a variety of roles.

"Being the president of the Student Union at St. Thomas University, I have had the opportunity to work with him on a number of projects. Not only is he courteous, he is also prompt. There has never been an

instance where Naz has not performed to the best of his abilities for us. He is a phenomenal DJ as well as being one that can make the numbers work for us.

"Students are in the utmost of his concern, and it is something that we truly admire in him. He is not out simply to make money from us. He believes in his work, and it shows.

"There is more to Naz, however. If you have ever been to the restaurant that he and his family run, Carribean Flavas, you will know what I am talking about. The skills that this man has for cooking are second to none. Naz can make anything, and then suit it to peoples' respective tastes -- and he does it with a smile. This is a true mark of a great chef. Whatever he does, he seems to excel at. There are not many restaurants in town that will allow for the chef to come out and talk to their patrons. Naz does just that.

"It has been my pleasure to know and work with him. I pray that he continues to work his magic in Fredericton -- he is a true gem!"

"I think Naz is highly motivated, resilient and full of faith. A born winner."

"Naz is the sickest, freshest and most warped DJ in Canada."
